

3-Stage Food Grade Applications

i076_0220

Food Grade and Stainless Steel units

Safeguard your operations from rust, dirt, water, and oil. The prefilters will remove contaminants at a very high efficiency - up to 99.99% for 0.01 microns. Liquid releases from the filter cartridge to an automatic drain as rapidly as it enters the filter. This allows the filter to continue removing liquids for an unlimited time without loss of efficiency or flow capacity. The final stage of filtration removes all viable organisms with an efficiency rating of 99.99% at 0.01 microns.

Food Grade Units

Port Size	Part #	Height (in.)	Width (in.)	Depth (in.)
1/2"	4P-061-F04-T3Ci	11.50	12.00	3.80
1"	4P-151-F08-T3Ci	18.10	15.00	4.80

These special Food Grade certified powder-coated filters are excellent for wash down environments, which is typical in the food processing and dairy industries. The powder coating itself is non-toxic. The filters meet the requirements of 21 CFR 110, while the coating ingredients meet at least one section of FDA Title 21, with the exception of food items containing 8+% alcohol. Both units include aluminum housings with food grade powder coating, as well as auto drains in the first and second stages.

4P-061-F04-T3Ci

Replacement Elements:

1st Stage: 4P-060
2nd Stage: 3C-060
3rd Stage: 3C-061

4P-151-F08-T3Ci

Replacement Elements:

1st Stage: 4P-150
2nd Stage: 3C-150
3rd Stage: 3C-151

Stainless Steel Units

Port Size	Part #	Height (in.)	Width (in.)	Depth (in.)
1/2"	4P-061-S04-T3C	11.10	9.80	3.25
1"	4P-151-S08-T3C	15.75	12.50	4.00

Easily remove water, dirt and oil contamination from applications without worry of corrosion. All units manufactured from 316 stainless steel. Units include stainless steel housings, as well as auto drains in the first and second stages.

4P-061-S04-T3C

Replacement Elements:

1st Stage: 4P-060
2nd Stage: 3C-060
3rd Stage: 3C-061

4P-151-S08-T3C

Replacement Elements:

1st Stage: 4P-150
2nd Stage: 3C-150
3rd Stage: 3C-151
